

2018 VOTE : HERE WE GO !

It's on the 1st round that the trade unions' representativeness is set !

The CGT trade union has proven itself for years, serving ALL employees, defending their rights and conquering new ones.

Vote for the CGT union to seek improvement of your quality of life at work and guarantee good management of your social and cultural activities.

It is necessary to make the right choice in the first round of the election, which determines trade unions representativeness and allows them to participate to contract negotiations.

It is worth remembering that the CGT union is **second in France among executive employees** with its General Union of Engineers-Managers-Technicians (UGICT). It should be the same at Total.

To vote for the **CGT Total UES Amont-Global Services-Holding** team is the way to raise your rights and social achievements.

With the new CSE and Central CSE, employees who could previously give a hand in committees for travel, vacation, health, expatriation... will now be deprived of this right. Your elected officials will decide alone for you !

Choose the right ones !
